12/10/84 54957-1(U) A

Nebraska Department of Social Services

1983 Annual Report

The Honorable Robert Kerrey
Governor of Nebraska
State Capitol Building
Lincoln, NE 68509

Dear Governor Kerrey:

This Annual Report of the Nebraska Department of Social Services is submitted, in accordance with State statute, for your consideration. It provides information regarding activities of the Department during the fiscal year ending June 30, 1983.

The Department's staff appreciates the support given it by the Governor and the Legislature in providing services to the people of Nebraska.

Sincerely,

Gina C. Dunning
Director

Legislation passed during the 1982 and 1983 sessions of the Nebraska Unicameral brought about major changes in the name, structure and authority of the Department of Public Welfare beginning July 1, 1983. The name of the Department was changed to the Department of Social Services to reflect the broad scope of Department responsibilities and to eliminate the negatively perceived term of "public welfare" from the title.

The structure of the Department changed from central and area field offices supervising programs administered by the county divisions of public welfare to direct administration of the programs through Department offices at the central and local levels. Employees of the various county divisions of public welfare became state employees. The purpose of this change from a state supervised, county administered system to a state administered system was to place all offices under a single authority and thus foster consistent administration of programs throughout the state. The Department, in its new form, is essentially unchanged in its purpose of providing maintenance payments and services to persons in need.

The primary focus of this report is fiscal year 1983 which began July 1, 1982 and ended June 30, 1983. During this period, the Department remained under its former structure consisting of a state central office, five area field offices and the Nebraska Center for Children and Youth (NCCY).

Administration

The central office has both policy making and administrative functions. The programs for which policies are made are discussed in subsequent sections. The administrative functions as they were organized before July, 1983 are detailed below.

Area field offices provided supporting services to counties and provided direct foster care services to state wards. The Nebraska Center for Children and Youth is discussed in the Children and Family Services chapter.

County offices were responsible for direct administration of the Department's programs under the supervision of the State Department of Public Welfare. Until January, 1983, some counties participated in multi-county services units (MCUs). The staffs of these units provided assistance such as chore services and protective services to persons living in the member counties. These units were eliminated with each county resuming responsibility for providing these services to clients within their respective boundaries.

Personnel and Training

The Division of Personnel and Training monitors a merit system for personnel administration and provides or coordinates training within the agency. The major undertaking for the year was the conversion of 1,200 county workers to state employees as part of the change to state administration.

The Training Unit continued to focus on building basic training curricula for all major program areas and on developing a training delivery system to insure consistent training across the state. Medicaid fraud and abuse, childhood development and parenting skills, income maintenance group intake, and foster parent training are examples of the variety of workshops offered through the year. A child welfare training network and the professional growth series were developed.

Finance and Accounting

The Division of Finance and Accounting is responsible for maintaining fiscal control over all expenditures of the Department at the state and local levels. The Accounting Unit processes all routine vouchers for administrative costs and program payment for the agency. It also submits all required federal financial reports. The Medicaid Reimbursement Unit reviews cost reports from hospitals and long term care facilities and processes payment adjustments due the provider or the Department. The Long Term Care Audit Unit performs field audits in long term care facilities. The Child Support Unit records and distributes all child support payments received. All income for state wards is received and recorded by the State Wards Account Unit. This unit also processes disbursement from the state wards' funds. The Fiscal Audit Unit audits each county welfare office on a quarterly basis.

Administrative Support

The Division of Administrative Support is comprised of two units. The Mail/Supply Unit processes mail and receives and distributes supplies and equipment. The Word Processing Unit prepares typewritten communications for the entire Department. The division is also responsible for planning utilization of office space and purchasing equipment. It provides liaison for building, telephone, and transportation services and manages the Department's security system for personnel records and equipment.

Field Services

The Division of Field Services, through Director's Representatives, provided direct administrative assistance and program support to county divisions of public welfare. Through reorganization of Field Services, the position of Director's Representative was eliminated May 1, 1983. Support to the local offices continues through direct contact with the Central Office. This change was a preliminary step in the reorganization of field services as it will function in the initial phase of state administration.

Research and Statistics

The Division of Research and Statistics plans, organizes, and directs statistical and research activities for the Department. In addition to responsibility for federal reporting on programs, the division conducts special studies and research projects relating to these programs and makes recommendations based on such studies. These findings are used by the Department Director and other divisions' administrators as the basis for decisions. The division also helps in preparing program budget estimates and requests for appropriations.

Payments and Data Services

The Division of Payments and Data Services is responsible for supporting Department programs in processing warrants, data entry forms, and other documents. The division is organized into sub-groups that are responsible for recipient grant payments, social services payments, medical payments, and the agency's computer data entry functions. Personnel in each of the payment processing groups must know and understand agency policies to process the forms and claims in compliance with agency requirements.

The Medicaid Inquiry Service supplies medical providers with answers regarding Medicaid policy, Medicaid billing procedures, and resolution of payment problems.

An increasingly important area of medical claims processing is the Third Party Liability (TPL) function. This section reviews medical claims to determine whether a payment may be avoided or recovered from a source other than Medicaid. Collections from this source increased substantially over the past year. Maintaining the level of collections requires interaction with other states, other state agencies, insurance companies, and various law enforcement offices.

Program Evaluation and Review

The Division of Program Evaluation and Review performs quality control reviews for the Medicaid, Aid to Dependent Children, and Food Stamp programs. Trend analyses are developed from the data collected to provide the information necessary to correct policy related problem areas.

In October, 1982, the Integrated Quality Control System was implemented. This federally mandated computer system contains details on case characteristics as well as error data. Common definitions of elements of error have been developed for the three programs under review by this system.

The Division applied for and received a 1115 waiver of Medicaid Quality Control during this period. The regular Medicaid eligibility review will be suspended and a retrospective sampling system will be implemented for the October, 1983 – March, 1984 review period.

Technical Assistance

The Technical Assistance Unit administers the Community Services Block Grant Program in Nebraska. This program authorizes federal funds to the state to promote self-sufficiency for low income individuals by providing services in such areas as employment, education, housing, emergency assistance, and nutrition. Technical Assistance staff monitor activities of the fund grantees, working with local officials, and providing information as needed.

Office of the General Counsel

The General Counsel heads the Department's legal staff. The Assistant General Counsel and staff attorneys provide legal advice and services to the Department. These involve interpreting federal laws and regulations, state statutes, and administrative rules and regulations of the Department, and drafting contracts, regulations, and legislation.

The legal staff conducts fair hearings for applicants and recipients who appeal decisions made regarding benefits, and assists in the investigation and preparation of fraud cases for prosecution by county attorneys. The attorneys assist the Attorney General's Office with Department-related litigation and serve as the agency's contact with the Governor's office and other state agencies involved in certification of the Department's regulations.

Manuals Unit

The Manuals Unit develops, issues, and maintains the official rules and regulations for the Department. Manuals Unit staff coordinate the public hearing and certification process to conform with the requirements of the Administrative Procedures Act. The unit also prepares and transmits State Plan material to the appropriate federal agencies. The unit has completed the rewrite of the Department's program manual and is turning its focus to the administrative and personnel manuals.

Many changes are expected in both the administrative and personnel manuals due to the conversion to state administration and the merging of the Nebraska Joint Merit System and the State Department of Personnel.

Graphics Design

The Graphics Design Unit is responsible for forms development, forms management, design of pamphlets, and other visual aids and art for the Department.

Information Systems

The Information Systems Unit is responsible for managing the Department's computer resources. This Unit provides support in such areas as feasibility studies, system design and development, system maintenance, equipment acquisition and maintenance, and system project management. It is also responsible for the development of the Department's data processing budget and monitoring of data processing expenditures. It represents the Department in data processing areas with other state, federal, and private sector entities.

STATEMENT OF DISBURSEMENTS[1]

	FY 1983
Actual Program Costs	
Medicaid	$152,390,345
Aid to Dependent Children	52,613,282
Low Income Energy Assistance	16,851,539
Title XX Purchased Services (except Mental Retardation)	8,220,166
Title XX Purchased Services (Mental Retardation)	4,943,612
Child Welfare Services	5,787,890
State Supplement to SSI	5,170,602
Services for Crippled Children	3,042,755
Nebraska Center for Children and Youth	2,994,162
Community Services	2,134,653
Refugee Resettlement	1,300,246
State Disability – Medical	970,916
State Disability – Maintenance	201,892
Miscellaneous	443,843
Emergency Assistance	197,368[2]
Work Incentive Program	90,775
Catastrophic Illness	88,682[2]
Total Program Costs	**$257,442,728**
Local Administration Costs	
Local Offices	19,732,742
Multi-County Service Units (6 months only)	312,032
Total Local Administration Costs	**$ 20,044,774**
State Administration Costs	
Supportive Units and Divisions	7,994,302
Child Support Enforcement	1,672,272
Medicaid	1,607,804
Social Services	1,082,279
Income Maintenance	678,349
Child Welfare	579,851
Food Stamps	398,207

Training	139,287
Licensing	120,016
Special Grants	105,914
Low Income Energy Assistance	75,933
Food Distribution	70,084
Refugee Resettlement	25,058
Miscellaneous	896
Total State Administration Costs	**$ 14,821,033**
Total Department Costs	**$292,308,535**

[1]These figures represent net expenditures adjusted for refunds and cancellations and do not necessarily correspond to gross expenditure figures used in the narrative and tables sections of this report.

[2]State and federal funds only, county share not included.

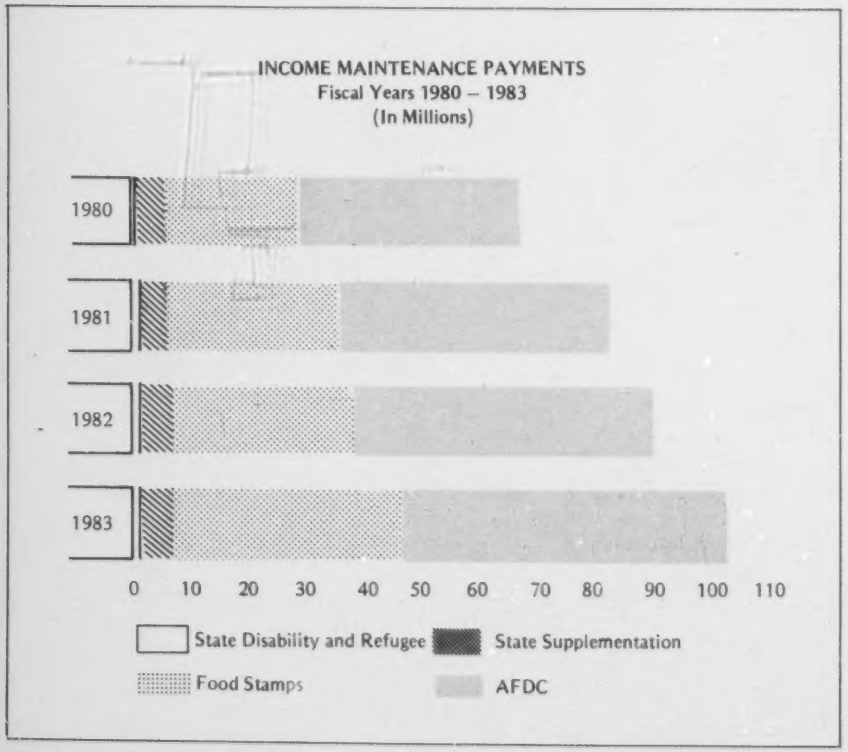
The figures presented in the narrative, graphs, and tables in this section and in the tables in the back of this report represent gross expenditure figures. They do not necessarily correspond to the figures in the Statement of Disbursements (Administration section) which represent net expenditures adjusted for refunds and cancellations.

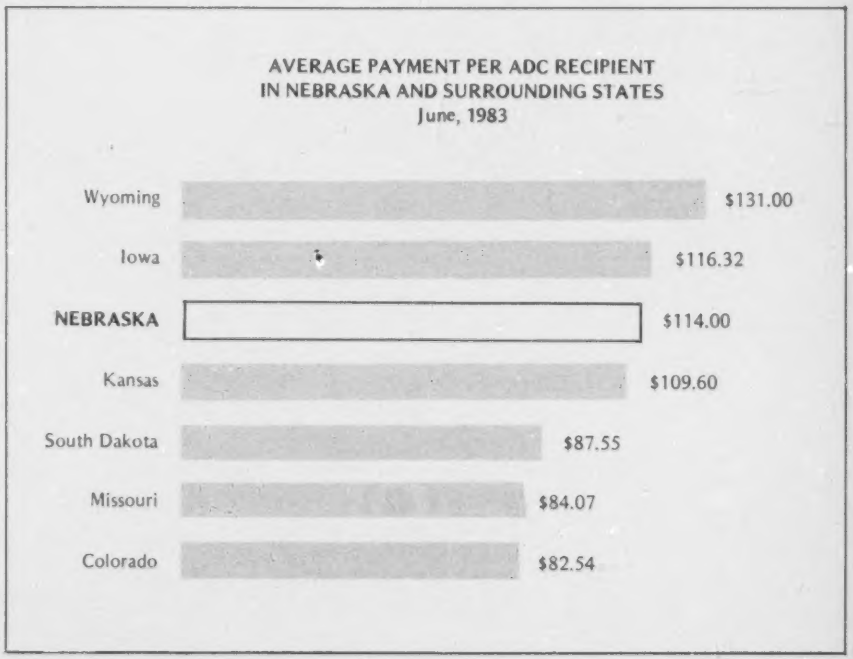
Income maintenance programs are those which provide cash payments to needy individuals and families who meet certain eligibility requirements. Policy is formulated and implemented statewide for these programs which include Aid to Dependent Children, State Supplement, Food Stamps, Emergency Assistance, State Disability, Refugee Resettlement, and Energy Assistance. During fiscal year 1983, income maintenance expenditures totaled $116,233,329, 15.1 percent over expenditures for fiscal year 1982.

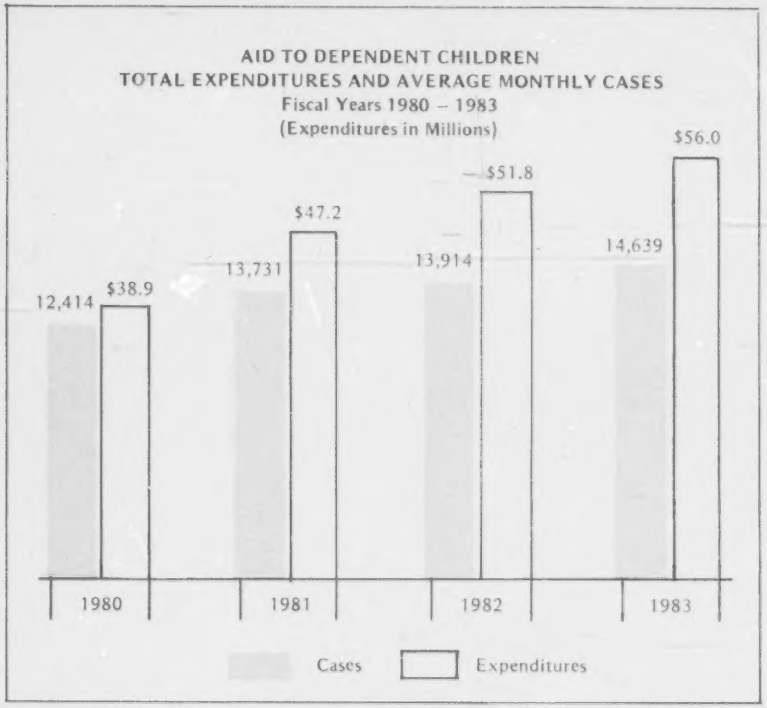
Aid to Dependent Children

The Aid to Dependent Children Program provides maintenance payments to children under 18 years of age who are deprived of parental support or care because of the death, continued absence from the home, physical or mental incapacity of the parents, or partial or total unemployment of the primary wage earner.

Aid to Dependent Children payments in fiscal year 1983 totaled $55,967,039, an 8.0 percent increase over the prior year. A monthly average of 14,639 families received payments, a 5.2 percent increase from the previous fiscal year. The average monthly payment per family was $318.60 and $114.00 per individual.







State Supplement

The federally-administered Supplemental Security Income (SSI) Program established uniform national income and resource requirements and payment standards for aged, blind, and disabled persons requiring financial assistance. The purpose of the State Supplement Program is to add to the federal benefits to bring the income of eligible persons up to the need standards of Nebraska which are higher than the standardized needs recognized by the SSI Program.

Some persons are not eligible for SSI payments, but qualify for a State Supplement payment because of different standards and regulations. Therefore, State Supplement cases consist of two groups - those which receive both SSI and a State Supplement and those which receive a State Supplement only.

In July of 1982, the payment standard was raised to $229 plus a housing allowance of up to $140 for one person. State Supplement payments to aged, blind, or disabled Nebraskans totaled $5,325,853 for fiscal year 1983, a 0.8 percent decrease from the previous year. An average of 7,951 cases per month received an average payment of $55.82. This was a 3.5 percent decrease in average case load and a 2.7 percent increase in average payment.

SSI AND STATE SUPPLEMENT CASES
AVERAGE MONTHLY NUMBER OF CASES
Fiscal Years 1980 – 1983

Years	SSI and State Supplement	State Supplement Only	Total State Supplement Cases	State Supplement Cases		
				Aged	Blind	Disabled
Fiscal Year 1980	5,522	1,402	6,924	2,736	112	4,076
Fiscal Year 1981	4,972	1,215	6,187	2,300	103	3,784
Fiscal Year 1982	6,843	1,395	8,238	3,358	134	4,746
Fiscal Year 1983	6,588	1,363	7,951	3,130	128	4,693

Refugee Resettlement

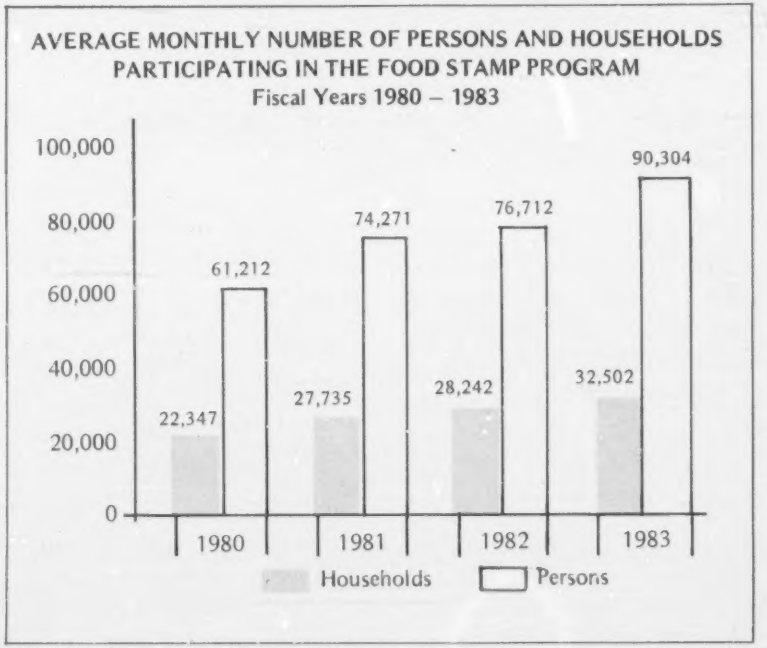
The Refugee Resettlement Program provides financial assistance to refugees who have been resettled in the United States. According to federal instructions any refugees requesting help must first apply for other programs. If they do not meet the requirements of these programs, an eligibility determination is made for the Refugee Resettlement Program. In fiscal year 1983, money payments to needy refugees amounted to $647,511. Special services including job development, vocational training, and English language classes were provided at a cost of $182,365.

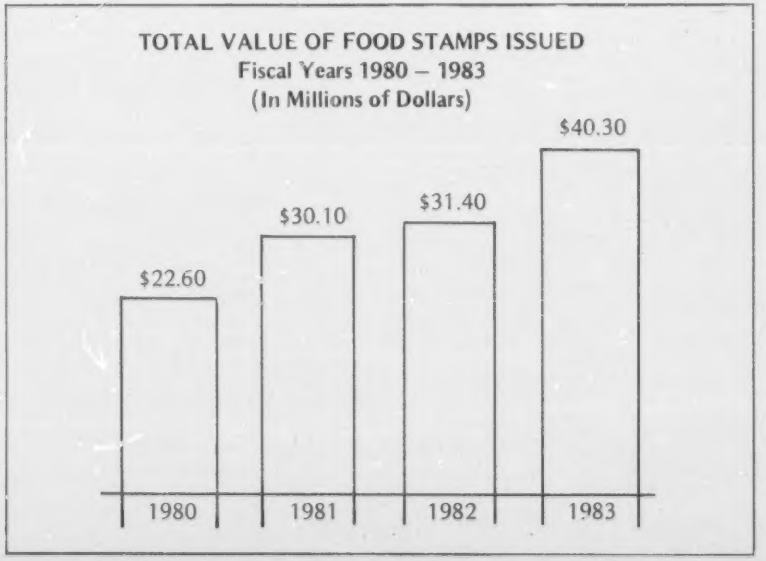
See the Medical Assistance section for information on the medical portion of this program.

Food Stamps

The objective of the Food Stamp Program is to raise the level of nutrition among low-income households. Participation in the Food Stamp Program is based on household size and adjusted net income in relation to federal eligibility standards which are based on poverty guidelines.

During the fiscal year, an average of 90,304 persons and 32,502 households participated in the Food Stamp Program each month. This represents an increase over fiscal year 1982 of 17.7 percent in the number of persons served each month and 15.1 percent in the number of households. The average monthly number of households included 10,135 public assistance households (those in which all members of the household are Aid to Dependent Children recipients) and 22,367 non-public assistance households. The total value of coupons issued for fiscal year 1983 was $40,287,836 with an average value per household of $103.29 per month.





State Disability

The State Disability Program provides aid to needy persons who have a disability expected to last for at least six months, but less than the 12 months required to be eligible for the federal Supplemental Security Income Program.

State Disability maintenance payments this fiscal year were $229,098 or 19.2 percent more than last year. The number of cases changed from a monthly average of 62 last year to 63 this year. The average payment per case was $303.44.

See the Medical Assistance Section for information on the medical portion of this program.

Emergency Assistance

Emergency Assistance is provided to needy families with minor children in situations where other resources are not available. Examples of situations for which assistance is available are imminent evictions, loss of utility service, or exhaustion of food supplies.

Emergency Assistance payments were made this year to 7,440 people and cost $394,736. This was an increase in both persons and expenditures over last year. About 16.4 percent of recipient families also received Aid to Dependent Children.

See the Medical Assistance section for information on the medical portion of this program.

Low-Income Energy Assistance Program

The Low-Income Energy Assistance Program is a federally funded program designed to assist low-income households in meeting rapidly increasing energy costs. As of June 27, 1983, $12,581,152 in regular heating payments had been distributed to 37,149 households, $495,116 in emergency heating payments had been distributed to 2,652 households, and $304,988 in cooling payments had been distributed to 2,077 households. Of the total households assisted, 10,757 included at least one elderly person and 3,076 households included at least one handicapped person.

Child Support Enforcement Program

The Child Support Enforcement Program provides legal services to establish paternity and to establish and enforce court orders for child support. In addition, it monitors child support collections and provides services to locate absent parents. Child support collected for children whose families receive Aid to Dependent Children payments is retained by the state and federal government as reimbursement for the assistance payments. Support collected for children not receiving Aid to Dependent Children payments is passed directly to the families.

In fiscal year 1983, development and implementation of the State Revenue Intercept Program was begun, as was a form of mandatory wage assignment. These programs, along with others including interception of unemployment compensation benefits and federal income tax returns, will focus attention on the most productive cases and should significantly increase the amount of child support collections in Nebraska.

During fiscal year 1983, $3,620,485 were collected from absent parents on behalf of families receiving Aid to Dependent Children payments and $16,015,186 were collected on behalf of families not receiving these payments. This represents 14.1 and 16.6 percent increases, respectively, over fiscal year 1982 collections.

Work Incentive Program (WIN)

The purpose of the Work Incentive Program (WIN) is to prepare Aid to Dependent Children recipients for paid employment through a program of work experience, education, and training, coupled with supporting social services. On September 30, 1982, the program changed from one administered jointly by the Department of Labor and Social Services to a WIN Demonstration Program administered solely by the Department of Social Services. Currently employment assistance activities are purchased, through an agreement, from the Department of Labor.

The supporting social services that WIN recipients are eligible to receive are counseling, day care, family planning, medical services, and a clothing allowance to purchase necessary apparel for a specific job. During fiscal year 1983, an average of 1,284 persons per quarter received these services. Total WIN expenditures were $90,775.

PARTICIPATION IN FOOD DISTRIBUTION PROGRAM
Fiscal Year 1983

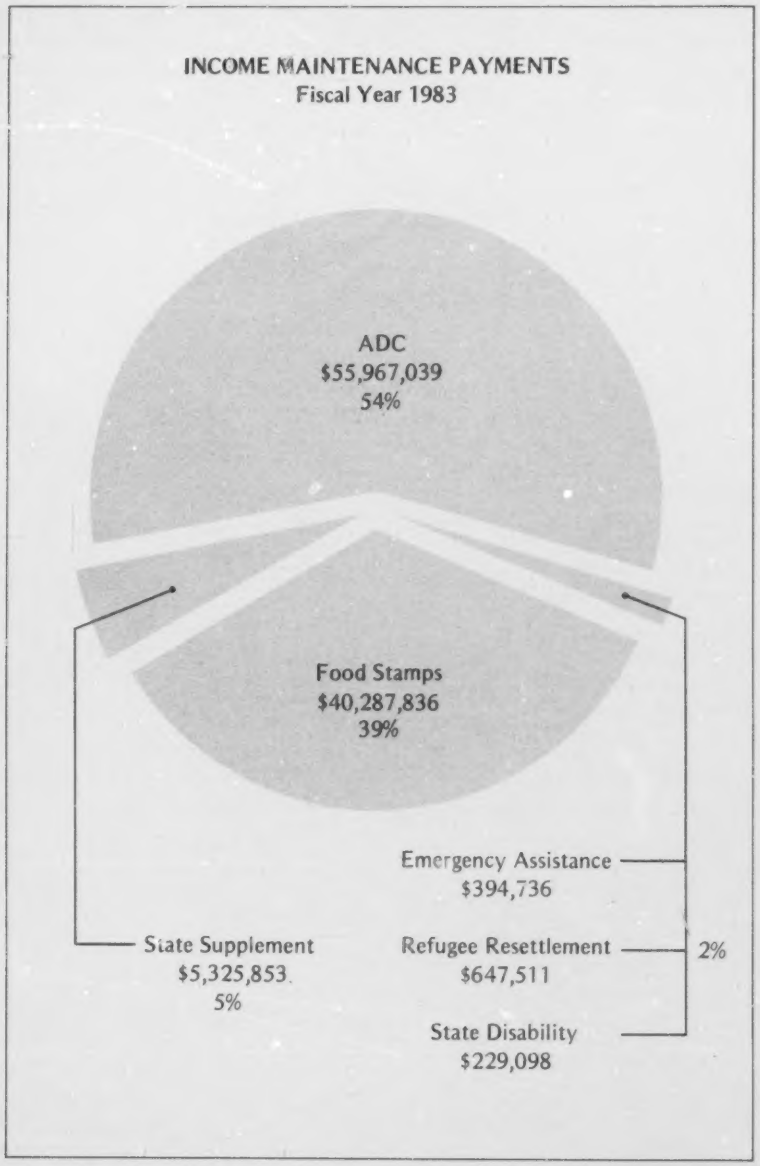
Type of Program	Number of Programs		Average Monthly Number of Participants	Food (Pounds)
Child Nutrition Programs	501 1,121	programs feeding sites	158,062	8,430,908
Institutions	115		7,350	1,058,911
Child Care Program	11	distribution centers	480	71,686
Summer Camps	43		3,594	54,441
Nutrition Programs for the Elderly	2 46	projects feeding sites	12,000	281,346
All Other Programs	7		1,356	13,981
Total				9,911,273

Food Distribution Program

The Food Distribution program receives food from the United States Department of Agriculture which it distributes to schools, charitable and correctional institutions, nutrition programs for the elderly, summer camps, special summer feeding programs, and commodity supplemental feeding programs.

During fiscal year 1983, foods were distributed for daily meal service to 158,062 children in the child nutrition program, to 7,350 institutional recipients, and to 12,000 individuals in nutrition programs for the elderly. Foods were also issued to summer camps and special summer feeding programs. A total of 9,911,273 pounds of food was distributed at a cost of $482,746 for warehouse and transportation charges.

The Special Distribution Program served 62,393 needy households in Nebraska during the past year. These households received at least two of the following products - butter, cheese, rice, cornmeal, or non-fat dry milk. The distributions occured on an irregular basis due to restrictions in the quantity of products received from the United States Department of Agriculture. This program began in December, 1982 and experienced steady increases in the number of households participating.



Medical Assistance

The figures presented in the narrative, graphs, and tables in this section and in the tables in the back of this report represent gross expenditure figures. They do not necessarily correspond to the figures in the Statement of Disbursements (Administration section) which represent net expenditures adjusted for refunds and cancellations.

Medical assistance payments constitute the largest portion of Department of Social Services expenditures. The Nebraska medical assistance program consists of Title XIX (Medicaid), Services for Crippled Children, and the medical portion of three non-Title XIX assistance programs: Emergency Assistance, State Disability, and Refugee Resettlement. These five programs are administered by the Division of Medical Services. Medical assistance expenditures for fiscal year 1983 were $156,784,181, an increase of 12.2 percent over expenditures for fiscal year 1982.

Medicaid

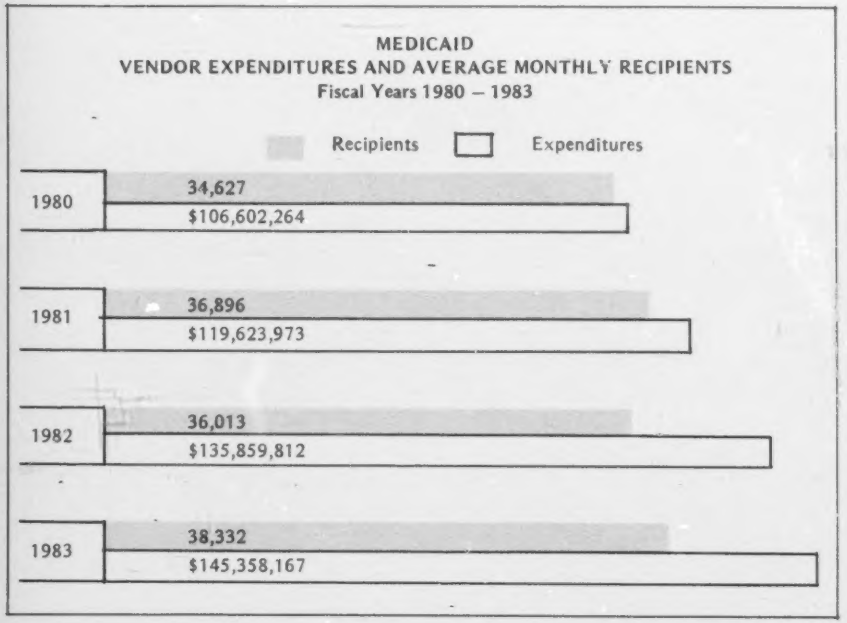
The most comprehensive medical assistance program is Title XIX (Medicaid). The medical expenses under this program are shared by the federal government, state, and county. Medicaid payments are made on behalf of about 80,000 Nebraskans each year or about 5 percent of the entire State population. The majority of Medicaid recipients are children and persons age 65 or older. The number of persons receiving services during fiscal year 1983 increased 7.3 percent over 1982. This was mainly due to an increase in the number of Aid to Dependent Children recipients. The unduplicated count of persons in families with dependent children receiving Medicaid services was 56,106 in fiscal year 1983 compared to 50,146 in 1982.

Financial need is the primary factor in determining Medicaid eligibility. Recipients of Aid to Dependent Children, State Supplement, and State Ward Foster Care are automatically eligible. Other persons who have income sufficient for maintenance needs but cannot afford needed medical care may qualify as "medically needy" if they are otherwise categorically eligible.

A prospective plan for nursing home payments was implemented during fiscal year 1983. A similar plan, in which per diem payment rates are established in advance of the fiscal year with no retroactive settlement, has also been established for hospitals.

A departmental task force was established to conduct a thorough study of the Nebraska Medicaid Program and make recommendations to the Governor for needed changes. A State statute placing a 3.75 percent increase limit for rates of payment, applicable to fiscal year 1983, was extended through fiscal year 1984.

Title XIX net expenditures during fiscal year 1983 totaled $152,315,757 and were paid on behalf of an average of 38,332 recipients each month. Net expenditures increased 11.9 percent and the average monthly number of recipients increased 6.4 percent over fiscal year 1982. Net expenditures are total expenditures less refunds.



The largest portion of Title XIX expenditures covers payments made directly to vendors of medical services. Other expenditures include payments of Medicare Part B supplemental medical insurance premiums, retroactive payments to nursing homes and hospitals to adjust interim per diem rate payments to actual costs, and direct voucher payments. Rebates were received from the Department of Public Institutions for the non-federal share of the cost of services in certain intermediate care facilities for the mentally retarded and inpatient mental hospitals.

Nursing home services (skilled nursing facilities, intermediate care facilities for the mentally retarded, and all other intermediate care facilities) and inpatient hospital services (general and mental hospital) accounted for 53.7 percent and 23.0 percent, respectively, of the year's total Medicaid vendor expenditures. Prescribed drugs and physician services were the most utilized Title XIX services with an average of 22,748 and 18,340 persons, respectively, using these services each month this year.

*Expenditures are total dollars paid for the year. Persons are average monthly unduplicated recipients. Within a month, a person is counted only once regardless of the number of times the service is utilized and counted only once in the total regardless of the number of different services received.

**Less than one average monthly person

+Service totals have been adjusted for $14,574 in Expenditures for Services to Non-Title XIX Eligibles. These amounts are not identifiable by category of eligibility.

Non-Title XIX Medical Programs

In addition to the Medicaid Program, there are three public assistance programs which offer medical assistance along with maintenance assistance: Emergency Assistance, the Refugee Resettlement Program, and the State Disability Program. These programs are similar to Title XIX in that they offer the same range of medical services, but differ as to funding sources, federal matching rates, and the recipient population served.

The Emergency Assistance Program provides financial and medical assistance to needy families in crisis situations. Medical expenditures in fiscal year 1983 (including Catastrophic Illness) were $119,428, an increase of 8.8 percent from last year.

The Refugee Resettlement Program provides financial and medical assistance and social services to refugees when sponsors are unable to meet total expenses. Expenditures in the medical portion of this program for fiscal year 1983 were $345,490 on behalf of an average of 210 persons monthly. This compares to expenditures of $370,383 paid on behalf of an average 200 persons per month last year.

The State Disability Program extends benefits to certain disabled persons who do not qualify for SSI, State Supplement, or Medicaid. During the fiscal year, $970,927 in medical benefits were paid on behalf of an average 92 persons each month. Medical expenditures increased 28.5 percent over last year, and the average number of persons for whom claims were paid each month increased 3.4 percent.

Services for Crippled Children

The Services for Crippled Children Program provides diagnosis and referral services to children, and purchases necessary treatment for them. Children who have a crippling or potentially crippling condition are given an evaluation upon request. Children determined eligible for the program are given additional treatment or services by medical providers under contract with the Department. Traveling clinics are held in locations outside of Lincoln and Omaha each year to serve children living in greater Nebraska.

The Supplemental Security Income-Disabled Children's Program provides blind and disabled children under age seven, and those who have never attended school, with medical, developmental, rehabilitative, and social services where such services may improve opportunities for self-sufficiency or self-support as an adult.

Expenditures for fiscal year 1983 were $2,883,083 for the Crippled Children Program and $149 496 for the SSI-Disabled Children's Program. As of June 30, 1983, 3,516 children were certified to receive services.

Social Services

The figures presented in the narrative, graphs, and tables in this section and in the tables in the back of this report represent gross expenditure figures. They do not necessarily correspond to the figures in the Statement of Disbursements (Administration section) which represent net expenditures adjusted for refunds and cancellations.

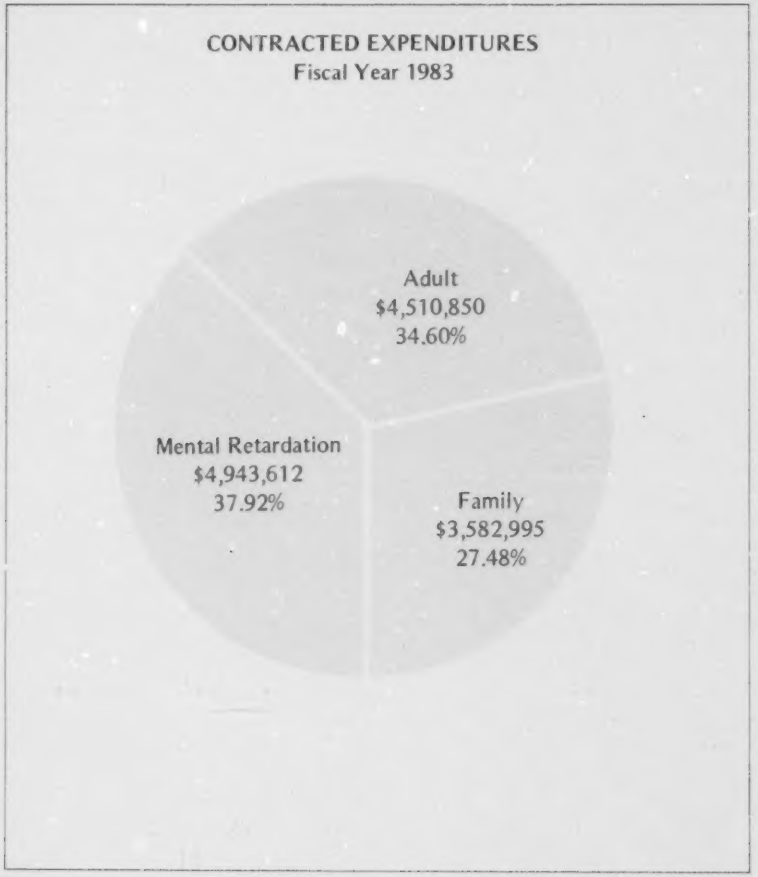
Social services programs serve individuals who are aged or disabled, and children, youth, and families. Major funding for social services programs comes from the Social Services Block Grant and State general funds. Other services are provided through child welfare funds.

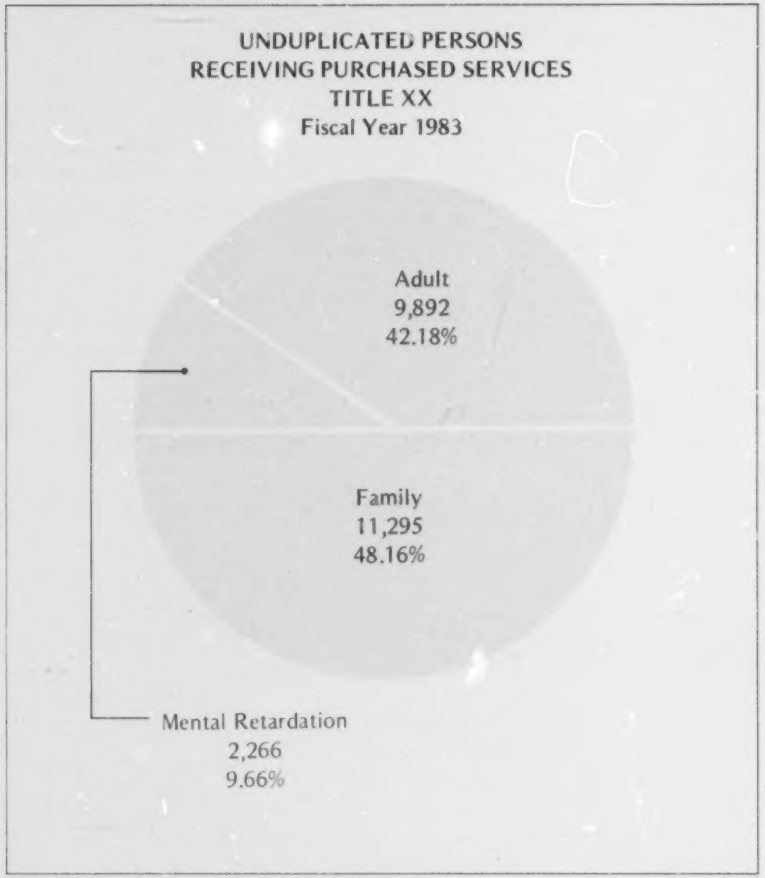
Aged and Disabled Services

Support of community-based alternatives to institutionalization remained a priority in the provision of in-home assistance including chore services, home-delivered meals, and homemaker services. Other community supported services provided were adult day services, congregate meals, mental retardation services, and transportation.

The Department enters into yearly contracts with the six community based mental retardation regions in the State. This year a mental retardation management information system was implemented providing automated data on individuals served by the regions. The system provides demographic, diagnostic, programmatic, client progress, and cost data. In addition, bi-weekly meetings are held with the Department of Public Institutions. Discussions have focused on mental retardation, mental illness, alcoholism, and drug issues.

During the year emphasis was given to the Adult Protective Services Program. The Department organized a committee to coordinate the research, planning, and development of proposed legislation for the protection of abused and/or neglected adults. Committee members include representatives of aging services, private attorneys, mental health agencies, and advocacy groups for the mentally ill and mentally retarded. In February, the Department and Creighton University entered into an agreement for a study of adult pro-





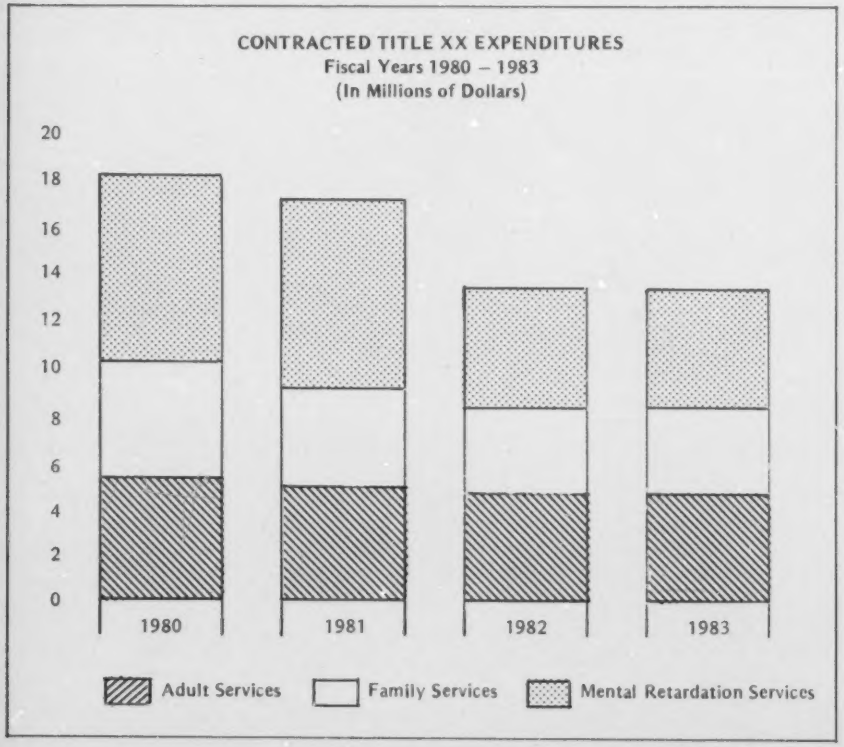
tective services. The results of this study will be used for staff training, conducting public awareness activities, and improving services for the abused/neglected population. Throughout the year training was conducted for health and licensing professionals and Department workers. Training focused on alcoholism affecting indigent, elderly, and mentally ill clients, and identification and reporting of suspected abuse/neglect in the community and in institutions.

Expenditures for purchased services including chore, day care, meals, homemaker, transportation, and other services for 9,892 adults during fiscal year 1983 totaled $4,510,850. Expenditures decreased 1.3 percent from the previous year.

Children, Youth, and Family Services

The primary goal of the Family Services Program is to enable low income families to become self-supporting. Day care services for children are provided to allow the usual caretaker to seek employment or remain gainfully employed. Homemaker and transportation services also support the goal of economic self-support as well as rehabilitation or crisis prevention to help the family remain intact.

Contracted services for children, youth, and families including day care, homemaker, and transportation were provided to 11,295 persons during fiscal year 1983 and cost $3,582,995. Ninety-two percent of this amount was spent for day care for 8,738 children. The average monthly cost of day care per child was $88.14. Overall expenditures for Children, Youth and Family Services from the prior year decreased 4.2 percent.



Domestic Abuse Program

As a result of the Protection from Domestic Abuse Act, the Department of Social Services was mandated to provide services to victims of domestic abuse and their families. The program funding was $428,000 for fiscal year 1983. The Department awarded grants to 23 community-based groups to provide seven emergency services. Contracted services included 24-hour access, transportation, medical and legal referral, crisis counseling, emergency financial aid, and shelter. Shelter facilities, hotels, motels, and community homes were utilized by the groups as safe havens for victims and their children. Volunteer and local support are significant in this program.

Licensing

The Department of Social Services has statutory responsibility for licensing day care homes, day care centers, foster homes, combination (day care and foster) homes, group homes, child care agencies, and child placing agencies. Significant increases in the number of licensed or registered facilities occurred this year. The number of day care homes increased from 1,461 to 1,708. The number of foster homes and foster/day care homes increased from 1,324 to 1,342. Other license types remained relatively stable in number.

Children and Family Services

The Division of Children and Family Services is responsible for foster care, adoption, group home placement, child protective services, emergency shelter care, parent and family services, resource development, and the Nebraska Center for Children and Youth. The division also administers a program for former wards who are ages 19 and 20 and in school. Any minor who is committed to the custody of the Department by order of the court or who is voluntarily relinquished by parents becomes a ward of the Department. As of June 1, 1983, there were 1,842 state wards, a 2.8 percent decrease since June, 1982.

Maintenance and medical assistance are available through the Title IV-B Foster Care Program for most state wards who are not eligible for the Aid to Dependent Children-Foster Care Program. During fiscal year 1983, maintenance expenditures of $4,875,851 were 6.8 percent higher than those for fiscal year 1982, while average monthly cases were down 4.2 percent to 983.

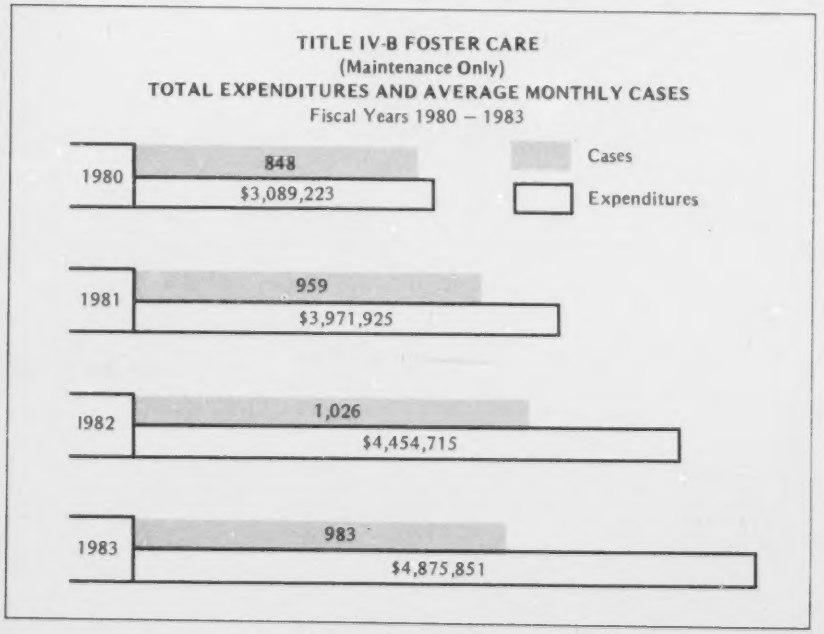
*Units are not similarly measured and cannot be added together.

The maximum payment for children in foster family homes is $210 per month. The payment for children placed in institutions is usually much higher. Children with special needs in foster family homes may receive another $60 per month. Special requirements include therapeutic diet, clothing allowance, transportation, subsistence to obtain medical care, and special training or education allowances. In exceptional cases, a larger amount is possible with specific approval. Average monthly payments rose from $370.76 in fiscal year 1982 to $413.35 in fiscal year 1983, an 11.5 percent increase. Children who receive Title IV-B Foster Care assistance may also receive direct and/or contracted services.

During the year, reunification services designed to assist state wards in returning to their natural parents were organized statewide. Each field office submitted proposals for projects based upon area population needs. Funds were distributed to the projects in proportion to the state ward population in each area. Services purchased included counseling, in-home services, parenting training, chemical and drug abuse dependency classes, and financial assistance.



On June 20, 1983, a new information system for the collection of data on Department wards was put into operation. The system creates an historic file of each child's placements and services while a ward of the Department. The system provides workers and administrators with information for delivery and assessment of services.

Subsidized Adoption Program

The Subsidized Adoption Program enables some wards of the state to be placed in adoptive homes by providing financial and/or medical assistance after the finalization of the adoption in court. Financial assistance may be provided with state funds for children who were IV-B Foster Care Program recipients prior to adoption or by state and federal funds (IV-E Adoption Assistance) for children who were receiving Aid to Dependent Children or State Supplemental income. In June, 1983, 334 children were living in 207 homes with the benefit of subsidy. This represents a 24.6 percent increase in children since June, 1982. During fiscal year 1983, expenditures for this program totaled $681,433, a 6.6 percent increase over the previous year.

The Nebraska Center for Children and Youth

The Nebraska Center for Children and Youth (NCCY) receives children under 18 years of age who have been committed to the Department by juvenile court for evaluation, treatment, and/or residential care. The Center's main campus located in northeast Lincoln, serves a maximum of 78 children who require a structured, intensive care program. The facility includes seven cottages, a transitional center, school, recreation area, and medical unit. The campus program was serving 69 children as of June, 1983.

The NCCY Group Home Program provides intermediate community-based care for a maximum of 62 youth who no longer require institutional care and can benefit from supervised group living situations and normal community resources. Fifty-four children were living in eight group homes located in Auburn, Bellevue, Columbus, Lincoln, Seward, and in semi-independent apartments in Lincoln as of June 30, 1983.

Emergency Shelter Care Program

The Emergency Shelter Care Program is available across the state to provide crisis care to children in need of such placement. During fiscal year 1983, 845 children were served. The Emergency Shelter Care Program is funded through child welfare monies and allows a fee of $10 per day for children age eleven and under and $15 per day for children twelve and over. This payment is made to licensed foster care homes agreeing to provide care to children at any time of the day or night.

Child Protective Services

Protective services are offered to families where suspected child abuse or neglect is reported. Services include investigations, counseling, case management, supervision, day care, and homemaker services. Protective services are offered without regard to the family's income. During the year, 4,082 cases were investigated for suspected child abuse or neglect. Additional services were provided when appropriate.

Two pilot projects in the Lincoln and McCook offices are providing pre-placement prevention services to selected families where foster care placement may be imminent. These families receive intensive services (such as homemaker, counseling, and day care) aimed at developing the family's parenting and other coping skills. Service workers have flexibility in meeting the needs of the family. Results of the projects will be used in planning for statewide pre-placement prevention services.

Abuse/Neglect Hotline

The Department operates a toll-free, full-time hotline for reporting suspected abuse, neglect, or exploitation of incompetent or disabled adults or of children. The hotline receives approximately 49 calls per month and is currently operated by Nebraska Communications Systems of Grand Island, Nebraska. The hotline number is 800-652-1999.

1983 STATE LEGISLATION AFFECTING THE DEPARTMENT OF SOCIAL SERVICES

LB 146 – Changes certain requirements for adoption procedures.

LB 235 – Provides for the establishment of rules and regulations by the State Health Department concerning the care of persons in nursing homes.

LB 273 – Establishes training requirements for nursing home employees.

LB 274 – Provides for the appointment of a receiver for a nursing home.

LB 306 – Requires child restraint devices in automobiles.

LB 371 – Changes procedures for the collection of child support.

LB 401 – Changes the name of the Department of Public Welfare to Department of Social Services.

LB 415 – Changes provisions for placement of dependent children at the Nebraska Center for Children and Youth.

LB 417E – Changes provisions for cost reimbursement to local subdivisions for child support enforcement services.

LB 498 – Allows the State Fire Marshal to assess fees for child care facility inspections.

LB 604 – Phases in transfer of county financial participation in Medicaid beginning July, 1984, and brings in State administration of the Department of Social Services as of July, 1983.

LB 618 – Continues the 3.75 percent limit on increases in vendor payments over the April, 1982 rates.

+ In ADC, families are the same as cases.

* Foster care and ADC-UP segments are included in ADC-Total. To obtain totals for ADC-Regular subtract ADC-FC and ADC-UP from ADC-Total.

** Due to rounding columns may not sum vertically.

* PA households are those in which all members are receiving financial assistance under the ADC program.
Non-PA Households are those in which one or more household members do not receive benefits under the ADC program even though they may be a recipient of another form of public assistance.

* Due to duplication, data on persons may not sum vertically.
** Due to rounding, dollars may not sum vertically.
+ County totals may not match other tables due to rounding.
*** The state total line has been adjusted for $14,574 in payments for services to Non-Title XIX eligibles, not identifiable by county of finance. This amount is reported under Non-Title XIX Medical Payments for Refugee Resettlement recipients.

TITLE XIX EXPENDITURES BY SERVICE BY COUNTY, FISCAL YEAR 1983
